PROFESSIONAL SUMMARY

RPO Operations professional with 4+ years of experience serving as the operational backbone for onshore recruitment and compliance teams across UK Education, Primary Care, and global Aviation sectors spanning UK, Europe, Middle East, Africa, Asia, and Russia. Known for absorbing end-to-end operational load — sourcing, compliance, BD, and client management — so onshore consultants can focus entirely on strategy, growth, and client relationships. Consistently operated beyond job title remit: self-initiating BD pipelines, building candidate pools ahead of client visits, solving operational problems independently, and delivering results with minimal supervision. Multilingual in English, Hindi, and Gujarati. Increasingly leveraging AI tools to enhance efficiency, outreach, and sector knowledge.

CORE COMPETENCIES

- Offshore RPO Delivery & Desk Management
- Onshore–Offshore Stakeholder Management
- DBS, Safeguarding & UK Compliance
- Global Compliance Operations
- Self-Initiated BD & Lead Generation
- CRM Management & Data Governance
- Anticipatory Pipeline Development
- Independent Problem-Solving Under Pressure
- AI-Augmented Workflow & Outreach

PROFESSIONAL EXPERIENCE

Senior Business Development Consultant | RPO Arena (Aristo Global Private Limited), Ahmedabad, India *July 2026 – Present*

- Operated with minimal onshore support from day one — director went on holiday within the first week; independently built AI-assisted outreach frameworks, acquired sector knowledge rapidly, and advanced a prospect to agreement signing stage within the first month.
- Generated 401 outreach touchpoints across UK GP surgeries and Primary Care providers, demonstrating that high-quality offshore BD can deliver client-facing results without direct onshore supervision.
- Maintained structured CRM pipeline documentation — giving onshore stakeholders complete real-time visibility without needing to chase for updates, reducing their administrative burden significantly.

Senior Compliance Officer – Operations & Assurance | QX Global Group, Ahmedabad, India *June 2025 – June 2026*

- Served as the compliance backbone for onshore teams across UK, Europe, Middle East, Africa, Asia, and Russia — absorbing end-to-end candidate verification so consultants could focus entirely on client relationships and business strategy.
- Identified a critical operational gap when compliance forms were unavailable — independently created them from scratch, unblocking the verification process and preventing deployment delays without escalating upward.
- Standardised multi-jurisdictional verification workflows, reducing error rates and improving turnaround times across a high-volume global compliance operation while maintaining full audit readiness.

Senior Recruitment Consultant – UK Education & BD | CareMint Recruitment Ltd., United Kingdom (Remote/Offshore) *June 2024 – April 2025*

- When CareMint lost its primary vacancy supply contract, pivoted from pure recruitment into full BD — generating approximately 1,500+ outreach touchpoints across Education, Logistics, and Transportation sectors to sustain business operations during a critical period.

- Delivered fully compliant, deployment-ready candidates by managing the complete pipeline from sourcing through DBS compliance, safeguarding checks, and onboarding — eliminating compliance risk for clients at every placement stage.
- Operated as a third-party non-framework agency competing on job boards against framework agencies — placing candidates in an exceptionally competitive environment where every successful placement required significantly greater effort and commercial creativity.

Senior Recruitment Consultant | [Morgan Hunt, United Kingdom \(via IMS People Possible — Offshore RPO\)](#) *May 2022 – June 2024*

- Functioned as the complete operational backbone for the onshore UK Education Consultant — enabling the onshore team to focus exclusively on client visits and new business conversion by managing sourcing, compliance vetting, and desk operations end-to-end.
- Self-initiated a targeted email BD programme between client visit cycles — reaching out to new Sixth Form Colleges and reactivating dormant CRM contacts, ensuring every visit was supported by fresh warm prospects ready to convert.
- Ensured zero disruption to client service delivery during consultant absences — maintaining full pipeline momentum, preparing vetting sheets ahead of interviews, and managing client-facing correspondence directly without onshore supervision.

Achievement: "Champion of the Month" — Two-Time Recipient, recognised for outstanding delivery and client engagement.

Relationship Executive | [LifeCell International Pvt. Ltd., India](#) *Aug 2021 – Oct 2021*

- Managed client relationships and cross-functional service delivery, ensuring high-satisfaction account management and documentation consistency.

Medical Data Analyst | [ezDI Solution, Ahmedabad, India](#) *Feb 2020 – Apr 2020*

- Validated and analysed complex healthcare datasets against stringent quality and accuracy standards.

EDUCATION

Bachelor of Science – Biotechnology *June 2018 – May 2021*
Ganpat University, Gujarat, India
